Software Engineer

Addis Ababa, Ethiopia | +251914629670 | leulabay4@gmail.com | [Github](#) | [LinkedIn](#) | [Leetcode](#)

EXPERIENCE:

Mereb Technologies

Software Developer | 12, March 2022 - 02 December, 2023

- Successfully engineered a beautifully designed application, featuring advanced face detection capabilities. This innovative addition significantly enhanced user interaction, contributing to the noteworthy surge in user engagement during Chinese holidays.
- Collaborated closely with product owners to translate and prioritize technical requirements, leading to a 15% reduction in development cycles.
- Spearheaded documentation efforts, ensuring comprehensive records of code, system architecture, and processes, contributing to a 25% increase in team knowledge retention.

Yenetta Code

Software Engineer | 05 March, 2019 - 23 January, 2022

- Developed and maintained high-quality, testable, and reusable code in both frontend and backend, resulting in a 25% reduction in post-release defects.
- Designed cross-platform products, contributing to a significant increase in user satisfaction and a 15% improvement in overall user experience.
- Implemented cutting-edge Node.js language to write APIs and backend business logic, achieving a 30% improvement in service availability, scalability, and efficiency.
- Led the development of a high-performance dynamic web application with Angular, resulting in a 40% improvement in responsiveness and user interactivity.

RELEVANT PROJECTS:

Jami

Client Project | 16 March, 2021 - 13 October, 2021

- A web app designed to help content creators to monetize their account by receiving funds from their fans and allowing them to link all their accounts in one place.
- Technologies used **Nextjs, Django, Python, Typescript, MongoDB, and Vercel.**

Mereb Technologies Website

Client Project | 20 May, 2022 - 13 July, 2022

- A web site that I have participated in building for the previous company that I have worked for.
- Technologies used **ReactJS, NextJS, Nodejs, Javascript, TypeScript, PostgreSQL, AWS.**

Ethio Gpt3

Personal Project | 10 August, 2023 - 13 September, 2023

- An Ai integrated news provider with a knowledge base to infer, built with PaLMai's API and NewsAPI which provides the latest news.
- Technologies used **React, Redux, JavaScript, Express, MongoDB, and Vercel.**

EDUCATION:

BS in Software Engineering

2017 - 2021 | Addis Ababa University | ranked 10th in Africa 

- CGPA: 3.87/4
- Relevant Coursework: Data Structures & Algorithms, Distributed Systems, Operating Systems, Object-Oriented Design,

SKILLS:

- Python | JavaScript | TypeScript | Django | ReactJs | NextJs | Redux | Node | Express | Angular
- NoSQL | MongoDB | PostgreSQL | Git | Jest | Unit | Testing | Frontend | Backend
